

W

Jewellery *Size Guide*

Your ring should fit on *comfortably* and requires a bit of *wiggle and jiggle* when removing.

That, we call a *snug fit!*

Not sure of your *ring size?*

Here are some methods to do the job.

Note that Twomorrow uses US sizing for all our rings.

1 Measure your *finger*

2 Measure an *existing ring*

3 Measure with a *ring sizer*

Do not fret if you didn't get it right the first time, we offer complimentary ring resizing within 1 year from the date of purchase.

[Drop us an email](#) to find out more.

Measure your *finger*

Using a piece of paper or a string.

1 Cut a strip of paper to 15cm in length and 0.5cm in width or use a string about 15cm in length.

2 Wrap it comfortably around your finger.
It is recommended that you take 2 measurements if your knuckle is much larger than your finger's base, measure the knuckle and the part of your finger where the ring will sit, then choose a size in between.

3 Mark the point where the paper / string meets around your finger.

4 Straighten it and use a ruler to measure the length in millimeters. This will give you the circumference.

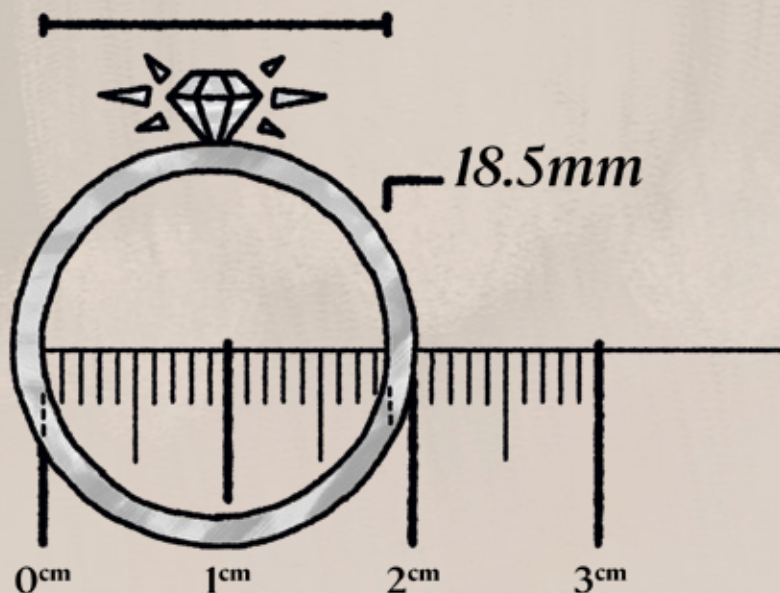

5 Refer to the 'Circumference' column on the Ring Dimension Chart to determine your size.
Should your measurement fall in between sizes, we recommend to opt for the larger size.

Measure an *existing ring*

The ring diameter method.

1 Measure the inside diameter of the ring in millimeters.

2 Refer to the 'Inside Diameter' column on the Ring Dimension Chart to determine your size.
Should your measurement fall in between sizes, we recommend to opt for the larger size.

Measure with a *ring sizer*

Don't have one? Request for a free ring sizer [here](#).

1 Take the tip of the ring sizer and put it through the buckle to form a loop.

2 Place the loop over the intended finger, then gently pull through till it's snug but not uncomfortable.

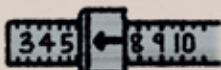

3 Make sure that the ring sizer can come on and off just like a ring would. Remember, the ring should fit on comfortably and requires a bit of wiggle and jiggle when removing.

4 When the fit is snug, read the size indicated by the arrow.

Keep in mind that the half sizes are indicated between sizes.

Size: US 5

Size: US 5.5

Twomorrow *Ring Dimension Chart*

US	Inside Diameter ^{mm}	Circumference ^{mm}
3	14.1	44
3.5	14.5	45.5
4	14.9	46.5
4.5	15.3	48
5	15.7	49.5
5.5	16.1	50.5
6	16.5	52
6.5	16.9	53
7	17.4	54.5
7.5	17.8	56
8	18.2	57
8.5	18.6	58.5
9	19	59.5
9.5	19.4	61
10	19.8	62.5
10.5	20.2	63.5
11	20.7	65
11.5	21.1	66
12	21.5	67.5
12.5	21.9	69
13	22.3	70
13.5	22.8	71.5

All Twomorrow Rings follow US Sizing.
If your ideal fit falls between two sizes,
we recommend to opt for the larger size.

Measuring your *bracelet size*

1 Measure the part of your wrist where the bracelet normally sits with a soft measuring tape, a strip of paper, a ribbon or a string.

2 Make the fit snugly, mark it and measure the length with a ruler (if not using the measuring tape).

3 With the wrist diameter measurement, refer to the chart next to discover your bracelet size.

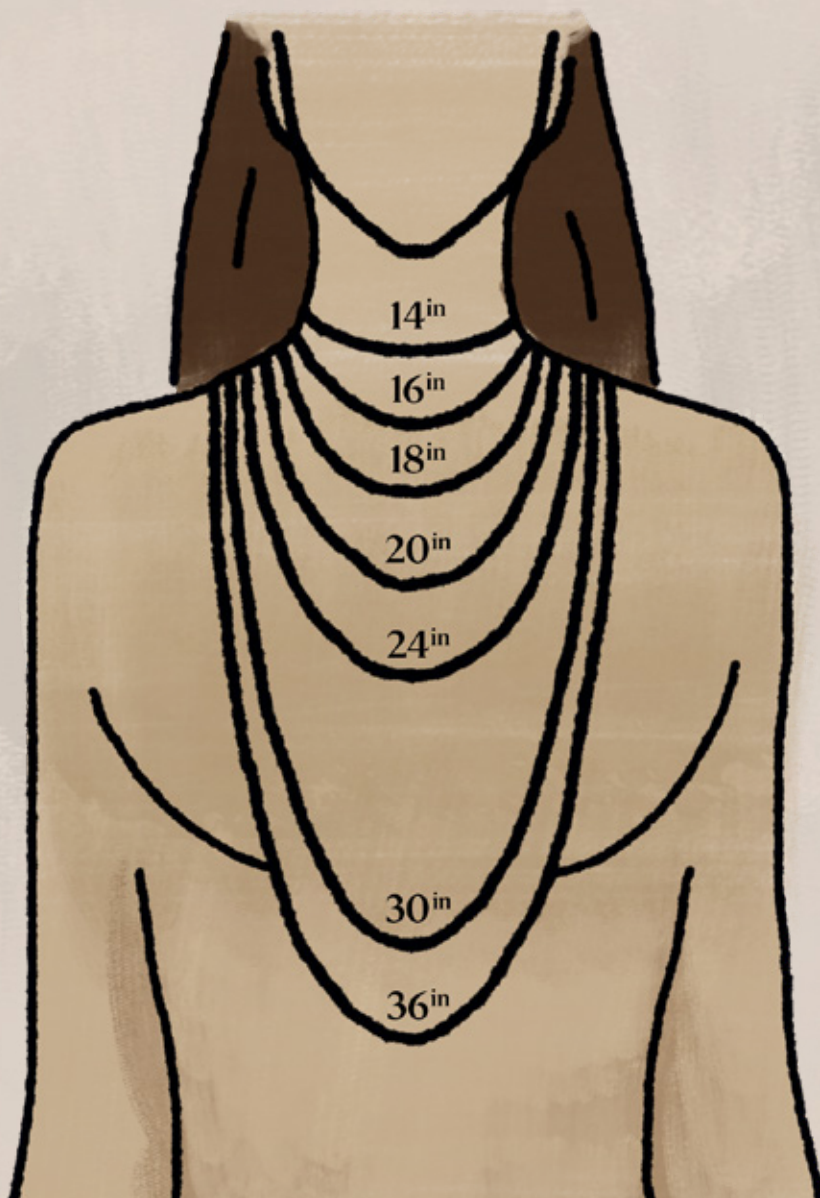

Twomorrow *Bracelet Size Chart*

Wrist \emptyset in	Wrist \emptyset cm	Bracelet Size in	Bracelet Size cm
5.5	14.0	6	15.2
5.75	14.6	6.25	15.9
6	15.2	6.5	16.5
6.25	15.9	6.75	17.1
6.5	16.5	7	17.8
6.75	17.1	7.25	18.4
7	17.8	7.5	19.1
7.25	18.4	7.75	19.7
7.5	19.1	8	20.3
7.75	19.7	8.25	20.1
8	20.3	8.5	21.6
8.25	20.1	8.75	22.2
8.5	21.6	9	22.9

If your ideal fit falls between two sizes,
we recommend to opt for the larger size.
